PROFILE

Computer engineer with almost two years of production experience on Bizmed HBYS, a hospital information system used in nearly 90 hospitals (Delphi, Oracle PL/SQL), and applied deep learning work on medical images, including an X-ray fracture classifier with 98.2% test accuracy. First-ranked graduate of Siirt University's Faculty of Engineering, now in a thesis-based M.Sc. in Computer Engineering.

EXPERIENCE

Software & Database Specialist
Sinerji Bilişim (Bizmed) · Remote

07/2024 – 04/2026

- Delivered hospital client requests across several departments of Bizmed HBYS: fixed bugs and added features, modules and interface controls in Delphi.
- Extended the Oracle database behind these features: added tables, columns and PL/SQL functions, and modified existing functions and procedures.

PROJECTS

Bone Fracture Classification
Graduation project. VGG16 transfer-learning CNN: 98.2% accuracy and 0.98 F1 on 506 held-out X-rays.

Python, TensorFlow, Keras, VGG16, CNN

JobPilot
Multi-agent job-search pipeline: resume parsing, LLM-generated search keywords, 0–100 job matching, tailored applications and reply handling.

Python, FastAPI, Playwright, SQLite, LLM agents

Cataract Classification
VGG16 with custom CNN layers distinguishing immature from mature cataract: 86.6% accuracy on 82 test images.

Python, TensorFlow, Keras, VGG16, CNN

Heart Disease Detection
KNN and Naive Bayes on 1,190 clinical records; Naive Bayes reached 84.0% test accuracy.

Python, Pandas, scikit-learn, KNN, Naive Bayes

Hand Signal Classification
Real-time gesture recognition (CNN, OpenCV) trained on a self-collected dataset; predictions shown on an Arduino-driven LCD over serial.

Python, CNN, OpenCV, Arduino

install-from-video
Claude Code skill that turns tool-recommendation videos into verified install commands, with local transcription and npm/GitHub checks.

Python, faster-whisper, yt-dlp, Claude Code

EDUCATION

M.Sc. in Computer Engineering (thesis program)
Siirt University, Institute of Science and Technology · GPA 86.75 / 100

2026 – Present

B.Sc. in Computer Engineering
Siirt University · First-ranked student in the Faculty of Engineering · GPA 3.56 / 4.00

2021 – 2025

SKILLS

Programming	Python, SQL, C#, Delphi, JavaScript
AI & machine learning	Deep learning (CNN), Transfer learning (VGG16), Computer vision, LLM agents, TensorFlow, Keras, scikit-learn, Pandas, OpenCV
Databases & backend	Oracle PL/SQL, PostgreSQL, SQLite, Database design, FastAPI
Systems & tools	Hospital information systems (HBYS), Arduino, Playwright, Claude Code
Languages	Arabic: Native · Turkish: Fluent · English: Intermediate (B1–B2)
